

Narrows Bridge - Mulloway, Tailor and Black Bream. Fish from the shore or by small boat. No anchoring in the channel.

No shore access - Keep clear of ferries if fishing by boat.

Good crabbing in Perth Water over summer.

Shallow water - travel carefully.

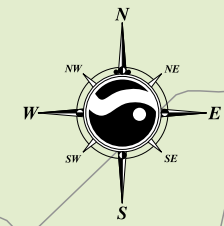

Fringing Reeds can be easily killed by trampling. They are very important to the Swan River ecosystem - Please do not disturb riverside vegetation.

Many anglers are starting to use lures in the Swan River for species like Black Bream, Flathead, Mulloway and Tailor.

Bait fishing can be frustrating due to the large number of Blowfish.

Compared to the Swan the Canning River is only lightly fished but is very productive.

Several new jetties have been built in the Canning River upstream from Mt Henry Bridge. These are ideal spots to fish from.

UPPER SWAN AND CANNING RIVERS
