Recfishwest visits Bremer Bay for Summer Clinics

On Monday 17 January, Recfishwest visited the community of Bremer Bay in the State's south to conduct two family fishing clinics at the Bremer Bay Marina. These fishing clinics are a popular annual event which coincided with summer holiday swimming lessons.

A group of 56 excited kids were keen to "wet a line" and for some it was their first time they had experienced fishing. During the clinics a variety of fish were caught including herring, skippy and buff bream.

Recfishwest was again delighted to team up with the Shire of Jerramungup and the Bremer Bay Resource Centre, who we have had a long association for over nine years running summer clinics.

The Shire provided the kids with a barbeque lunch along with a special treat of chocolate cake and cordial which made for a nice finish to the day!

Fish today for tomorrow
